

SERVICE & SUPPORT

Managed Maintenance Program

*PROTECT UPTIME.
CONTROL COSTS.
EXTEND EQUIPMENT LIFE.*

PRAB equipment is engineered for demanding industrial environments and built to deliver years of reliable performance. Realizing that full-service life requires consistent, expert-level maintenance — the kind that catches developing issues before they become costly failures.

The MMP assigns a dedicated PRAB-certified, factory-trained technician to your facility on a recurring schedule. Each visit delivers a comprehensive equipment inspection, a documented condition report, and manufacturer-direct guidance — so your team always knows exactly where your equipment stands.

PROGRAM TIERS — ALL TIERS IMPROVE UPTIME, RELIABILITY & EQUIPMENT LIFE

PROGRAM FEATURE	SEMI-ANNUAL	QUARTERLY	MONTHLY / WEEKLY
SCHEDULED VISITS	2 per year	4 per year	Custom schedule
PARTS DISCOUNT	10% off	15% off	Negotiated rate
SERVICE DISCOUNT	15% off	20% off	Negotiated rate
BEST SUITED FOR	Stable, lower-wear applications	High-volume or continuous operations	Mission-critical or multi-unit facilities

Parts and service discounts apply to all non-MMP visits within the enrolled service year. Monthly/Weekly pricing is custom-negotiated based on facility size, equipment count, and visit frequency.

WHAT EVERY MMP VISIT INCLUDES:

- Top-to-bottom inspection by a PRAB-certified, factory-trained technician
- Written inspection report documenting current equipment condition
- Maintenance baseline assessment — early detection of component wear
- Recommended corrective or preventive actions, prioritized for your team
- Manufacturer-direct guidance on best practices, improvements, and modifications
- Priority scheduling coordinated with your production windows

DESIGNED FOR

- OPERATIONS / PLANT MGMT
- FINANCE / OWNERSHIP
- MAINTENANCE LEADERSHIP
